

Paper on Theology of Leadership and Change

Write a five - seven page paper that discusses what you believe are the key theological themes that are important for your leadership. This is an integrative paper that where you identify how what you believe about God, Jesus' person and work, the Holy Spirit, etc. interacts with your understanding of the tasks and theory of leadership. You are to interact with the literature we have read, and make connections to what your theological understanding of leadership and your understanding of change. Then, given your integration of theology and leadership, what does it means to lead change in an organization/church?

Note – This is not a paper about your personal story and leadership. You may need to interact some with your personal context in order to set the framework for your present understanding of leadership, but this paper should move on from your previous paper to deal with the theory and tasks of leadership – from a theological perspective.

You are to cite at least four sources so that your theology and your understanding of leadership are interacting with other material. At least two of these sources must be from material on the syllabus.

12 point font, 1 inch margins, double-spaced, Chicago style

Include your name and the course title on each page
